Technical Skills

Languages: JavaScript (ES6), C++, Java, HTML, CSS
Frameworks/Libraries: Bootstrap, jQuery
Versioning: Git, GitHub

Projects

[Protagonist](#) | [GitHub](#)

Winter 2022

- Built a one-page Ecommerce website with **HTML, CSS, JavaScript, and Bootstrap**.
- Utilized **Isotope JavaScript and jQuery** to create a responsive product layout that can accommodate multiple modes.

[Essential Aesthetics](#) | [GitHub](#)

Fall 2021

- Created a responsive dermatology website with **JavaScript, HTML, and CSS** for a client.
- Enabled users to sort and search through items. Breadcrumb links included for easier navigation.
- Utilized session storage to dynamically load recently and currently selected product with a description.

[Disflex](#) | [GitHub](#)

Fall 2021

- Utilized **JavaScript, HTML, and CSS** to create a flexbox reference simulator.
- Displayed CSS snippet that updates when a flex property is hovered or clicked.
- Allowed users to modify flex container by providing options to add item, remove item, randomize heights, and equalize heights.

[Minus Minus](#) | [GitHub](#)

Spring 2021

- Collaborated with a peer to create an interpreter that parses equations and execution functions for a new programming language based on **C++**.
- Utilized multiple stacks to determine operator precedence, line management, and function calls.

Education

Glendale Community College

February 2022

Degree: AS in Computer Science

GPA: 4.0

Courses: Algorithms, Computer Architecture and Assembly Language, Computer Networks, Data Structures

University of California, Santa Barbara

June 2017

Degree: BA in Art, Dean's Honors 2016

GPA: 3.4

Work Experience

Starbucks Corporation | Barista Trainer

September 2017 to Present

- Manage continuous learning of incoming and current employees according to company standards.
- Improve brand equity with efficient personalized service through optimization of production and analysis of social cues.
- Increase sales by addressing, predicting, and understanding consumer needs to develop relationships.
